MGI Zip Navigator Ai $2795
Remote Control Electric Caddie
36 Hole Lithium Battery
Accessories Included
Drink Holder
Umbrella Holder
GPS Phone Holder

With brand new technology and a strikingly modern design, the new Navigator Ai is designed with an integrated GPS system built into a super responsive high-resolution 4" full color all-weather touchscreen display, that provides golfers with access to more than 40,000 pre-loaded courses worldwide.

Packed with innovative Geo Protect technology, this Ai Series technology ensures your electric caddy automatically stops if it drives close to a GPS identified mapped hazard, such as bunkers or water hazards on the course.

The Navigator Ai also builds on MGI's renowned full directional handheld remote control with a new technology, Follow Me mode, which allows the electric caddy to follow the remote control holder while remaining a safe distance behind the operator.

3 WARRANTY YEAR

MGI™ Ai Series caddies are supplied with a limited 3 year warranty.

MGI™ uses only genuine parts and batteries for the life of your caddy, so you can enjoy your investment for years to come.

NAVIGATOR Ai

GPS TECHNOLOGY

- Features an integrated high-performance GPS system.
- Preloaded with access to more than 40,000 courses worldwide.
- Designed with Wi-Fi and Bluetooth capabilities for live GPS tracking, golf course map updates and warranty registration.
- GPS mapping delivers fast, accurate distances to all parts of the course including the front, centre, and back of greens and hazards.
- Features Geo Protect technology which ensures your electric caddy automatically stops if it drives close to a GPS identified mapped hazard, such as bunkers or water on the course.

INTERACTIVE

- Super responsive 4" portrait high-resolution full colour all-weather touchscreen display.
- Transflective display enables clear sharp viewing in all weather conditions.
- Supported by the MGI & Sureshot Smartphone App.
- Stroke and Stableford scoring integrated into the handlebar top box display.
- Automatic golf course recognition within 5km/5mi of course.
- Automatic hole advancement once the caddy reaches the next tee box.
- Automatic round timer & real-time clock.

COLOUR TOUCH SCREEN

FEATURES

- The Navigator Ai builds on MGI's renowned full directional handheld remote control with a new technology, Follow Me mode.
  - » Follow Me mode allows the electric caddy to follow the remote control holder while remaining a safe distance behind the operator. Stop and start walking with ease as the caddy returns to you from any distance away and then follows your every move while maintaining a safe distance from you and course hazards.
  - » Go Away mode allows the user to send the caddy away up to 150 metres.
  - » Manual mode allows the user to walk behind the caddy like a traditional pushcart with speed control from 1-20 to match everyone's individual walking pace.
  - » Patented Gyroscope Straight Tracker technology keeps the caddy on track across any terrain.

ENGINEERING

- Twin 230Wh calibrated motors for supreme power & agility.
- Powered with a high performance 24V 380Wh lithium battery.
- Features downhill speed control, which allows golfers to maintain their desired speed on any downhill terrain.
- Control distance function enables the setting of a chosen distance and the caddy will stop on demand after travelling that distance.
- Electronic park brake allows the Navigator Ai to automatically stop and hold on any terrain.
- Redeveloped from the ground up, the new Navigator Ai has a single action fold & unfold.
- Smaller footprint than the predecessor Zip Series and can be stored vertically or horizontally providing better storage and transport capabilities.
- Fully foldable rear 5th wheel for added stability.

ASSURANCE

- 3 year warranty.
- Worldwide customer support.

- Magnetic Case
- 6x Magnification
- Priority Lock
- Pin Lock
- Scan Mode
- Adjustable Focus
- Water Resistant
- Lightweight
- Protective Case

CELEBRATING OVER 25 YEARS OF INNOVATION EST. 1993

KNOW THE DISTANCE

PINLOC 6000iPSM

MAGNETIC CASE

A powerful magnet inside the casing allows the laser to be stuck to a cart or buggy frame for quick access.

INTELLIGENT

Sureshots fastest optics and target recognition software to date.

PULSE

Once locked onto your desired target a vibration can be felt, ensuring you've measured the right distance.

SLOPE

Compensates and adjusts the measured distance based on the slope of the terrain. Can be switched on/off.

FEATURES

MAGNETIC CASE
Your laser holds an internal magnet, that makes it easy to connect to any metal surface.

SLOPE BUTTON
Turns Slope Mode ON / OFF.

LONGER LIFE BATTERY
New and improved long life 3V lithium battery.

PINLOC
Once locked onto target, the distance is displayed on screen for 15 seconds.

PRIORITY LOC
Ignores background images and will prioritize focal points.

MAGNIFICATION
Objects appear 6x closer for a clearer and more precise view.

LIGHTWEIGHT
Lightweight and designed to fit the contour of your hand for control.

WATER RESISTANT
Built to last with shock and water resistance for all conditions.

SCAN MODE
Receive real-time distances as you scan the terrain and horizon.

FEATURES	6000iPSM
